Connect in Nature

Yosemite is one of the most awe-inspiring places in the world, and now your guests can experience the beauty firsthand. Whether you are planning a beautiful wedding, a successful networking event, or a relaxing company-wide retreat, our properties have one of the Yosemite venues you need to connect in nature.

Our Story

To co-founder and president, Gerald (Jerry) Fischer, Yosemite is more than just a beautiful destination; it's a sanctuary of nature's finest artistry.

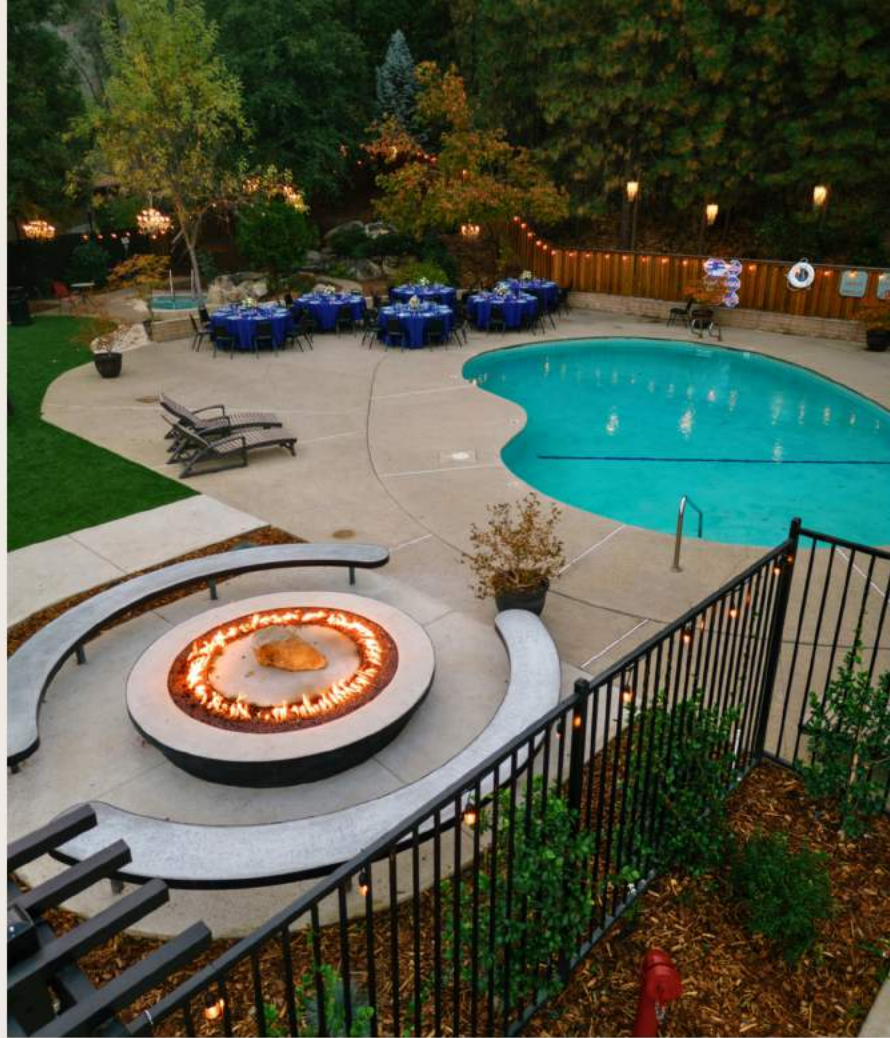

With a vibrant tapestry of changing seasons that take the views from the golden hues of autumn to the snow-capped tranquility of winter and the rushing falls in the summer, the Valley enchants all who cross its threshold.

At a Glance

With multiple venues right outside of Yosemite National Park, all tucked in the iconic Sierra Nevada Mountains, nestled in the forest, guests create incredible memories in one of the world's most unforgettable places.
