

### Five stars all around!

I can't imagine doing this trip without a guide.  
The knowledge shared made all the difference.  
Absolutely perfect day exploring with family.

### Just Fantastic!

We loved our experience with Discover Yosemite! Our guide was patient, pleasant and shared a wealth of information. I've been to Yosemite several times and this was the first time I booked a tour and I'm glad I did. I learned more and saw more than in all my previous visits. If you visit Yosemite, let them show you the sights!

### Worth the Money

We were considering a tour because we didn't want to deal with traffic or parking. We then learned you needed park reservations so decided to book one. It was a bit pricey for 7 of us but very much worth the convenience. The bonus is we learned so much more about Yosemite than we expected and the kids loved it.

### Fun & Informative

Our tour guide was very knowledgeable and fun to talk to. Easy voice to listen to as well. The snacks and drinks during the tour were a great touch. Comfort and safety were always on his mind.
